

FTZ Savings Calculator Updated

Tuesday, December 26, 2017

You might have heard about Foreign Trade Zones (FTZ) and that your company could save a substantial amount of money by operating within one, but is it worth it?

Estimate what these savings might be with our [FTZ Savings Calculator](#), which has been updated to reflect the new maximum Merchandise Processing Fee (MPF) of \$497.99.

Simply plug in a few numbers and this calculator will evaluate your potential duty savings—from deferred, reduced, and eliminated duties—as well as possible savings from using an FTZ weekly entry procedure.

Need help analyzing FTZ costs and benefits? [Contact Mohawk Global Trade Advisors today and talk to one of our FTZ experts.](#)
